New Interface, New Search Tools, Better Results

The new IEEE Xplore digital library delivers cutting-edge research via a powerful and intuitive user interface. With advanced search capabilities and insightful research tools, the new IEEE Xplore makes finding the trusted research you need easier and faster—with better results.

You'll spend less time researching—and more time hypothesizing new ideas, developing better products and pioneering ground-breaking technology.

Also new in IEEE Xplore

Expanded Browse Options

The Browse button is featured throughout IEEE Xplore and a new browse page now lets users browse by Content Type, Title or Subject. With Subject browsing, you'll get to see popular technology topics and related content.

Institutional Branding for Customers

To promote the subscribing organization and educate end users that this content is made available by their institution's subscription, a prominent institutional module will be available for authenticated users throughout the site. This module will include an organizational logo as well as information about their subscription.

Enhanced Online Support

Page guides, online help and support have been consolidated into one common area with localized files available in several languages.

Get started with the new IEEE Xplore!

- Sign up for training on the new IEEE Xplore: www.ieee.org/gp/ieeexplore_training
- Encourage your users to sign up for a personal account so they can access search alerts and preferences.
- Reset your table of content alerts via your personal account settings in the new IEEE Xplore (your current alerts will expire).
- Submit your organizational logo: www.ieee.org/gp/submitlogos
- Update your federated search tools to target the new IEEE Xplore.
- Contact onlinesupport@ieee.org for more information.

Experience the New IEEE Xplore® Digital Library
Delivering innovative research better than ever
Discover a Smarter Research Experience

Revising a web resource that is visited millions of times a month is a complex task, requiring years of multi-functional team research. The new IEEE Xplore digital library is the product of collaboration between IEEE and hundreds of librarians, faculty, scientists and engineers, as well as IEEE members, volunteers and students. Designed to make searching for and finding relevant research easier, faster and more streamlined, the new interface includes several important customer-requested enhancements, including:

- New easy-to-navigate design
- Innovative search engine with enhanced features—do one search then drill down by multiple facets
- New personalization features—save your searches and customize your preferences
- New browse options like browsing by subject or most popular
- Institutional branding for customers including custom logos
- Free abstract previews pages for guests
- Enhanced online support

What’s New with IEEE Xplore

What’s New with IEEE Xplore

- Global search box on every page lets users start a new search from anywhere.
- Convenient type-ahead shortens searching time.

Improved Search Capabilities

- Faceted search results and a new search engine greatly improve functionality and make finding the right information even easier. Smart “Refine this Search” capabilities allow you to refine or expand results by multiple facets.

New Personalization Features

- Several personalization options are available for guests, members and users at subscribing institutions.
- Save search preferences using multiple content and display criteria with a personal account.
- Post-search sort options provide results display flexibility.
- Sign up for RSS feeds or e-mail alerts to stay current on newly added content.

Custom Saved Searches

- Create up to 15 saved searches—for the research most relevant to your work—directly from the search results page.
- New automatic search suggestion intuitively corrects spelling.
- Functional search broadcast trail intuitively adds or removes search elements.

New IEEE Xplore Interface

The new IEEE Xplore enhances the search and browse tools in a clean, simple and more efficient design. A prominent browse tab and search box on every page provides quick access to valuable research.
